				SPECIAL REMARKS			40

R Steaua Electrică S.A. a fost înființată în anul 1936. Societatea noastră, situată în Fieni, s-a dezvoltat continuu încă din primul an de la înființare când a început producerea tuturor semifabricatelor necesare. În prezent ea funcționează ca o fabrică integrată. Liniile noastre de fabricație sunt foarte flexibile, fapt demonstrat de adaptabilitatea capacităților de producție la cerințele pieței. Steaua Electrică S.A. exportă o gamă largă de lămpi incandescente speciale sub mărcile Selum® și Selfi®. Piețele noastre principale sunt țările vest-europene.

UK Steaua Electrica was founded in 1936. Our company, established in Fieni, was continuously developed beginning the production of all components since the first year after its foundation. Now functioning as an integrated plant. Our assembly lines are very flexible, shown in the adaptability of the productive capacities to the requires of the market. Under Selum® and Selfi brand Steaua Electica S.A. exports a wide range of special incandescent lamps, our main markets being the West European countries.

F Steaua Electrica a été fondée en 1936. Notre entreprise, qui est établie à Fieni et qui s'est continuellement développée, a commencé la production de toutes les composantes dans la première année après sa fondation déjà. Aujourd'hui, elle fonctionne comme usine intégrée. Nos chaînes d'assemblage sont très flexibles: la production peut toujours être adaptée aux exigences du marché. Sous les marques de Selum® et de Selfi, Steaua Electrica S.A. exporte un grand assortiment de lampes à incandescence spéciales. Nos marchés principaux sont les pays de l'Europe de l'Ouest.

D Steaua Electrica wurde im Jahr 1936 gegründet. Unser in Fieni niedergelassenes Unternehmen hat sich in den Jahren nach der Gründung kontinuierlich im Bereich der Herstellung sämtlicher Komponenten entwickelt. Der Betrieb präsentiert sich heute als eine integrierte Fabrik. Unsere Montagelinien zeigen einen sehr flexiblen Aufbau, was sich in der Fähigkeit, auf die Anforderungen des Marktes ausgerichtete Produkte zu produzieren, widerspiegelt. Unter den Markennamen Selum® und Selfi exportiert Electica S.A. ein breites Produktangebot an Glühlampen. Unser Hauptabsatzgebiet liegt in den Ländern Westeuropas.

NL Steaua Electrica is gevestigd in de Roemeense stad Fieni en werd opgericht in 1936. Sindsdien heeft onze onderneming een constante ontwikkeling doorgemaakt. Al in het eerste jaar na oprichting werd begonnen met de productie van onderdelen in eigen beheer. Inmiddels beschikt Steaua Electrica over een geïntegreerde productiefaciliteit met uiterst flexibele montagelijnen die volledig zijn afgestemd op de vraag van de markt. Onder de merknamen Selum® en Selfi exporteert Steaua Electrica S.A. een breed assortiment speciale gloeilampen, met West-Europa als belangrijkste afzetmarkt.

SP Steaua Electrica fue fundada en 1936. Nuestra empresa, establecida en Fieni, que inició la producción de todos sus componentes al año de su fundación, se ha ido desarrollando continuamente. Actualmente funciona como una planta de fabricación integral. Nuestras cadenas de montaje son flexibles, hecho que se demuestra por su poder de adaptación a las exigencias de productividad requeridas por el mercado. Bajo la marca Selum® y Selfi, Steaua Electica S.A. exporta una amplia gama de luces incandescentes especiales, siendo los países del este su mayor mercado.

AUTO LAMPS

UK The often hectic traffic conditions of each day demand an efficient and reliable vehicle lighting. A modern car contains more than 30 sorts or different types of incandescent automotive lamps. Fortunately, a high degree of standardisation between most car manufacturers has already been reached.

SELUM® offers one of the largest range of vehicle lamps, which are produced at a constant and strict quality level.

Automotive lamps can be divided into headlight lamps, auxiliary exterior lamps, interior lamps and dashboard lamps. Auxiliary lamps are for example side, tail and parking lights, or direction, indicator, stop and fog lights.

SELUM® also supplies traditional miniature tail lamps for bicycles and scooters. We also have a wide range of fuses. And last but not least, distance key lamps and fork lift lamps can be supplied.

Special mention deserve our Heavy Duty (HD) lamps, specially designed and produced for resistance to vibration and shocks, used to trucks, tractors, buses etc. (24V ranges). Another special range are our Long Life Lamps (LL), life hours are doubled compared to normal ranges.

The automotive lamps are manufactured to strict international standards and appropriately marketed in conformance with the E.C.E. Regulation No. 37. Most lamps bear the official approval mark E.

The lamps also reach the requirements of DIN and British Standards for automotive lamps.

An ISO certification is available as well.

AMPOULES POUR VOITURES

F La circulation agitée de nos jours nécessite un éclairage efficace et sûr des véhicules. Une voiture moderne est équipée de plus de 30 sortes d'ampoules spéciales. Heureusement, il est question d'une grande standardisation dans l'industrie automobile.

SELUM® offre l'un des plus grands assortiments d'ampoules pour voitures, qui sont produites d'après des normes de qualité strictes et constantes.

Les ampoules pour voitures peuvent se subdiviser en ampoules pour phares, ampoules pour feux complémentaires (avant et arrière), ampoules pour l'intérieur et ampoules pour le tableau de bord. Les ampoules pour feux complémentaires sont entre autres utilisées pour l'éclairage des côtés, pour les feux arrière, pour les feux de stationnement, pour les clignotants et les feux de stop ainsi que pour les phares antibrouillards.

SELUM® livre aussi les feux arrière miniatures bien connus pour bicyclettes et scooters. En plus, nous produisons un grand assortiment de fusibles. Finalement, nous livrons des phares longue-portée et des phares pour chariots élévateurs à fourche.

Nos ampoules "Heavy Duty" (HD) méritent une mention spéciale. Ces ampoules ont spécialement été conçues et produites pour supporter les tremblements et les chocs. Par conséquent, ces ampoules sont idéales pour les camions, les tracteurs, les autocars etc. (ampoules 24 V). Nos ampoules "Long Life" (LL) constituent une autre ligne de produits spéciaux. Ces ampoules ont une double durée de vie, comparées aux ampoules normales.

Toutes nos ampoules pour voitures sont produites d'après des normes internationales strictes et elles ont été certifiées conformément à la réglementation no. 37 de la C.E.E. La plupart des ampoules portent la marque d'approbation officielle E.

En plus, nos ampoules répondent aux exigences de la DIN ainsi qu'aux normes britanniques pour ampoules pour voitures.

Nous avons également une certification ISO.

AUTOLAMPEN

D Der gegenwärtige hektische Straßenverkehr erfordert eine effiziente und zuverlässige Fahrzeugbeleuchtung. Ein modernes Auto enthält mehr als 30 Sorten Spezialglühbirnen. Glücklicherweise liegt bei den meisten Autoherstellern ein hohes Maß an Standardisierung vor.

SELUM® bietet eines der umfassendsten Automobilbeleuchtungs-Sortimente, wobei nach strengen und konstanten Qualitätsnormen produziert wird.

Autolampen können unterteilt werden in Scheinwerfer, zusätzliche Front- und Heckbeleuchtung, Innenbeleuchtung und Armaturenblechbeleuchtung. Zusätzliche Lampen werden unter anderem für Seitenbeleuchtung, Schluß-, Brems- und Parkleuchten verwendet, sowie für Blinklichter und Nebelscheinwerfer.

SELUM® liefert außerdem die bekannten Mini-Rückleuchten für Fahrräder und Motorroller. Und wir stellen ein breites Sortiment an Sicherungen her. Schließlich können Sie sich auch bezüglich Weitstrahler und Gabelstapler-Beleuchtung an uns wenden.

Erwähnenswert sind an dieser Stelle auch unsere Heavy Duty (HD) Lampen, eigens dazu entworfen, vibrations- und stoßbeständig zu sein. Dadurch eignen sich diese Lampen ausgezeichnet für LKW, Traktoren, Busse usw. (24V-Lampen). Unsere Long Life (LL) Lampen sind eine weitere Reihe von Spezialprodukten, mit einer doppelt so langen Betriebsdauer wie herkömmliche Lampen.

Sämtliche Autolampen werden gemäß strenger internationaler Normen hergestellt und gemäß E.C.E.-Regelung Nr. 37 gekennzeichnet. Die meisten Lampen sind mit dem offiziellen E-Gütezeichen versehen.

Zudem erfüllen die Lampen die DIN-Anforderungen sowie die britischen Normen für Autolampen.

Außerdem liegt eine Zertifizierung nach ISO vor.

AUTOLAMPEN

NL Het hectische verkeer van vandaag de dag vraagt om een efficiënte en betrouwbare voertuigverlichting. Een moderne auto bevat meer dan 30 soorten speciale gloeilampen. Gelukkig is bij de meeste autofabrikanten sprake van een hoge mate van standaardisatie.

SELUM® biedt een van de meest uitgebreide assortimenten voertuiglampen, die worden geproduceerd volgens strikte en constante kwaliteitsnormen.

Autolampen kunnen worden onderverdeeld in koplampen, aanvullende voor- en achterlampen, interieurlampen en dashboardlampen. Aanvullende lampen worden onder meer gebruikt voor zijverlichting, achterverlichting en parkeerlichting, alsmede voor richtingaanwijzers, rem- en mistlampen.

SELUM® levert ook de bekende miniatuur achterlichtlampjes voor fietsen en scooters. Tevens produceren wij een breed assortiment zekeringen. En tenslotte kunt u bij ons terecht voor verstralers en lampen voor vorkheftrucks.

Speciale vermelding verdienen onze Heavy Duty (HD) lampen, speciaal ontworpen en geproduceerd om bestand te zijn tegen trillingen en schokken, wat deze lampen ideaal maakt voor vrachtwagens, tractoren, bussen etc. (24V-lampen). Nog een speciale productlijn wordt gevormd door onze Long Life (LL) lampen, die een dubbele levensduur hebben in vergelijking met normale lampen.

Alle autolampen worden gefabriceerd volgens strikte internationale normen en worden gewaarmerkt conform E.C.E.-regeling nr. 37. De meeste lampen zijn voorzien van het officiële E-goedkeuringsmerk. De lampen voldoen tevens aan de vereisten van DIN en de Britse normen voor autolampen.

Een ISO-certificering is eveneens aanwezig.

LUCES DE AUTOMÓVIL

SP El intenso y a menudo frenético tráfico cotidiano exige una iluminación del vehículo eficaz y fiable. Un coche moderno contiene más de 30 clases o tipos diferentes de lámparas de incandescencia para automóviles. Afortunadamente, ya se ha alcanzado un elevado grado de normalización entre la mayoría de fabricantes.

SELUM® ofrece una de las gamas más amplias de luces de automóvil, que se fabrican con un nivel de calidad constante y estricto.

Las luces para automóviles pueden dividirse en lámparas del faro de carretera, lámparas auxiliares exteriores, lámparas interiores y lámparas del salpicadero. Entre las lámparas auxiliares se encuentran, por ejemplo, las luces de posición laterales y traseras, o los intermitentes y luces de parada y antiniebla.

SELUM® también suministra las tradicionales pequeñas luces de posición traseras para bicicletas y motocicletas. Asimismo, disponemos de una amplia gama de fusibles. Y finalmente, aunque no por ello menos importante, también podemos suministrar lámparas de referencia de distancia y de horquilla elevadora.

Merecen una mención especial nuestras lámparas de fuerte construcción (Heavy Duty o HD), diseñadas y fabricadas especialmente para resistir a las vibraciones y los golpes, se utilizan en camiones, tractores, autobuses, etc. (gama de 24V). Otra gama especial la constituyen nuestras lámparas de Larga Duración (Long Life o LL), cuyas horas de vida duplican las de las gamas normales.

Las luces para automóviles se fabrican según normas internacionales estrictas y se comercializan adecuadamente de acuerdo con la Regulación N° 37 de la E.C.E. La mayoría de las lámparas llevan la letra E, marca oficial de aprobación.

Las lámparas también cumplen con los requisitos de las Normas DIN y British Standards para luces de automóvil.

Asimismo, disponemos de la certificación ISO.

Auf Anfrage schickt Selum® Ihnen ein gratis Exemplar zu. Die erwähnten Daten sind rein informativ. Selum® behält sich das Recht vor, eventuell erforderliche Änderungen vorzunehmen. Änderungen vorbehalten.

NL Op alle aanbiedingen en overeenkomsten inzake door ons te verrichten leveringen en/of diensten zijn onze algemene verkoop- en leveringsvoorwaarden van toepassing. Op aanvraag stuurt Selum® u gratis een exemplaar. Vermelde gegevens zijn enkel informatief. Selum® behoudt zich het recht voor om eventuele noodzakelijke veranderingen door te voeren. Wijzigingen voorbehouden.

SP En todas nuestras ofertas y contratos destinados a la entrega o realización de servicios se aplicarán nuestras condiciones generales de compraventa y de entrega. Si desea un ejemplar de dichas condiciones, solicítelo de forma gratuita a Selum®. Los datos aquí mencionados son solamente informativos. Selum® se reserva el derecho a llevar a cabo los cambios necesarios. Salvo modificaciones.

SPECIAL REMARKS FOR ALL LAMPS :

All dimensions are in mm. All the information has been given in good faith and is believed to be correct at the time of printing, however, Selum® cannot accept any responsibility for changes, alterations, or delations to product descriptions, photographs and drawings and any other errors or omissions thereof.

REMARQUES S'APPLIQUANT A TOUTES LES LAMPES :

Toutes les dimensions sont en mm. Toutes les informations sont fournies de bonne foi et sont réputées correctes au moment de l'impression. Toutefois, Selum® ne saurait accepter aucune responsabilité en cas de modification, de retouche ou de suppression des descriptifs, photographies et schémas des produits, ou pour toute autre erreur ou omission.

BESONDERE ANMERKUNGEN FÜR ALLE LAMPEN:

Alle Maße sind in mm. Alle Angaben sind in Treu und Glauben gemacht und zum Zeitpunkt des Ausdrucks als korrekt beurteilt worden, jedoch übernimmt Selum® keine Verantwortung für etwaige Änderungen oder Auswechseln der Produktbeschreibungen, Fotokopien und Zeichnungen und Fehler oder Auslassungen und den daraus eventuell entstehenden Fehlern oder Schäden.

SPECIALE OPMERKINGEN VOOR ALLE LAMPEN:

Alle afmetingen zijn in mm. Alle informatie wordt te goeder trouw verstrekt en wordt geacht juist te zijn op het moment van publicatie. Selum® aanvaardt echter geen aansprakelijkheid voor wijzigingen, aanpassingen of weglatingen met betrekking tot productbeschrijvingen, foto's en tekeningen en andere fouten of weglatingen daarin.

OBSERVACIONES ESPECIALES PARA TODAS LAS LÁMPARAS:

Todas las dimensiones son en mm. Toda la información se ha proporcionado de buena fe y se cree que es correcta en el momento de la impresión; sin embargo, Selum® no acepta ninguna responsabilidad por cambios, alteraciones o supresiones de las descripciones del producto, fotografías y dibujos, y cualquier otro error u omisión de las mismas.
